

Berridge Tee-Lock Panel

Material:

24 and 22 Gauge Steel

0.032 and 0.040 Aluminum

Panel is available from the factory in continuous lengths up to a maximum of 40'.

Advantages

- Factory Applied Hot Melt Sealant: For superior watertightness.
- Mechanically Seamed: May be installed on low slope applications.
- Bi-Directional Mechanical Seaming: Panel seaming is simplified.
- One Piece Clip: Allows for unlimited thermal expansion and contraction.

Available Colours :

About

The Berridge Tee-Lock Panel is a symmetrical architectural and structural standing seam panel. The Tee-Lock panel has a highly visible profile and offers enhanced performance in solid deck and open framing applications.
